

How Students Can Engage with Career Services

Career Services supports students of all majors and class years through all stages of career and professional development, including exploration, gaining experience, building job/internship and graduate school search skills, as well as decision-making. Our advisors meet students where they are and no prior knowledge or preparation is needed. We encourage all students to take advantage of the following:

Schedule an individual advising appointment via SpiderConnect or come to drop-ins Monday - Friday from 2 - 4 p.m. (no appointment needed) to explore your career interests and develop an action plan.

Utilize SpiderConnect to apply for jobs and internships, sign-up for programs and events, and explore career resources.

Build your resume and upload it to SpiderConnect.

Visit Career Services' website to explore online resources and learn more about how we can help.

Take advantage of funding opportunities, such as UR Summer Fellowships or the Career Opportunity Fund (must meet eligibility requirements.)

Attend an interactive workshop or program to learn the basics, or more about a specific industry, and discover how to leverage your experiences for future success.

Engage with employers through on-campus recruiting opportunities, such as information sessions, office hours, and interviews.
